## Objective

---

My name is Mustafa Mohamed. I graduated with an honor degree in Information Technology from the Sudan Academy for Banking and Financial Sciences. I am a highly motivated and detail-oriented web developer with 3+ years of experience in designing and developing dynamic websites and web applications, proficient in HTML, CSS, JavaScript, and modern frameworks such as React, Next.js, Tailwind CSS, and Bootstrap, as well as content management systems such as Clerk, Strapi, and Cloudinary. I am also a dedicated IT support specialist with 6 months of experience in providing technical assistance and support for hardware, software, and network issues, adept at troubleshooting, problem-solving, and user training. Additionally, I am a detail-oriented data entry specialist with 2+ years of experience in accurately inputting, managing, and maintaining large volumes of data, skilled in using various data entry software and tools. I am seeking to leverage my technical and creative skills to contribute to innovative projects, ensure seamless IT operations, and maintain data integrity at company.

## Projects

---

- **Detect forged signatures (Python)**  
Introducing our Python-powered signature detection system, equipped with advanced algorithms and machine learning capabilities. With precise analysis of signature patterns and strokes, it swiftly distinguishes between genuine and fake signatures. Whether in banking, legal, or any industry, our system ensures trust and security in document verification. Welcome to a new era of signature authentication. Welcome to reliability.
- **Pawmart (NextJS - Tailwind CSS - Strapi)**  
"PawMart" is your go-to destination for top-notch dog care, expertly built using Next.js, Tailwind CSS, and Strapi. With lightning-fast performance and seamless navigation, PawMart offers a sleek and modern browsing experience. Behind the scenes, Strapi powers effortless content management, ensuring PawMart remains a valuable resource for pet owners. Whether shopping for premium dog products or accessing expert advice, PawMart is more than just a website – it's a lifeline for pet parents everywhere. Welcome to PawMart, where your dog's wellbeing comes first.
- **Inventory Management (Javascript)**  
Introducing our innovative inventory management system, powered by JavaScript. With a sleek and intuitive interface, this system revolutionizes how you track, organize, and optimize your inventory. Say goodbye to manual processes and hello to streamlined workflows that save time and boost efficiency. From tracking stock levels to generating reports, managing orders, and more, our JavaScript-based solution is tailored to meet your needs and propel your business forward. Welcome to a new era of inventory management. Welcome to success.
- **Medcare (HTML - CSS)**  
"MedCare" is your comprehensive online hub for all medical services, meticulously designed with HTML, CSS, and JavaScript. Seamlessly navigate through vital healthcare resources, book appointments, and access informative articles with ease. JavaScript adds interactivity, allowing for dynamic features like appointment scheduling and live chat support. Welcome to MedCare, where top-notch medical services meet intuitive online accessibility.
